FIELD TRIP CONSENT FORM

From time to time classes take field trips as part of the school program. Field trips are taken to enrich the school program, to provide concrete examples, and to facilitate learning. It is the school's desire that parents be informed when children are taken on such trips. The faculty feels that there should be parental approval for such activities.

To minimize paperwork for both the parent and the teacher, we are asking that parental consent be given via this form for **ALL FIELD TRIPS** that your child may take this year with the class during regular school days, education days at various local churches (usually on Saturday mornings), or any specially called make-up day.

The teacher will send home a notice of each trip to be taken, but it will NOT be necessary for the parent to respond each time. *If you do not wish for your child to participate in a particular field trip, you should contact the school when you receive notice of the trip. Non-participation results in an absence for that day.*

Having read the above, I give my consent for _____ to
Please Print Child's Name

participate in field trips taken by the class/school during this school year and to receive any necessary emergency medical aid should such an occasion arise.
